

ROBBED, THROWN IN RIVER.

London, Fla., Oct. 11.—A man, whose name was not given, was taken from a boat on the St. Johns river, near the mouth of the river, and thrown into the water. The man was seen by two men, who were on the river, and they saw him being taken from the boat. The man was seen by two men, who were on the river, and they saw him being taken from the boat. The man was seen by two men, who were on the river, and they saw him being taken from the boat.

ARTIFICIAL PROFITS ON FOODS MUST GO, SAYS MITCHELL

By Sophie Irene Lomb.

ALBANY, Oct. 11.—"While many economic questions are higher on account of the war, looking at this question off-hand it would seem that there is too much margin between the cost of the producer and the price to the consumer. We are going to find out what it is," said John Mitchell, President of the new State Food Commission, when I talked with him on the milk question.

"It is a serious situation. If there is an artificial profit we are going to find some way to eliminate it. We will have at our disposal all the results of the investigations that have been conducted and that are now in progress."

Mr. Mitchell frankly admits that he has been called to this job without any preparation or experience. "I am going to do the best I can," he said. "I am seeking every avenue of information. I am calling upon experts and experienced food managers to aid me in ascertaining all angles of the work."

"If milk is being hoarded we will have ample power under the hoarding clause to seize it and sell it. This is one of the important sections of the new food bill."

"The Evening World in its fight against hoarding succeeded in putting what is generally conceded as the 'real teeth' in the measure relating to hoarding and speculating of common necessities."

"Within a maximum period of thirteen days after goods are found to be hoarded this commission has power to sell the food at a reasonable price to the consumer," said Mr. Mitchell.

"We are going to ascertain what

made and quantities of products are in the storage warehouses to-day and endeavor to pay the highest price for necessary food products for highest prices.

"In this connection," said Mr. Mitchell, "the municipal authorities may establish municipal markets with the cooperation and consent of this commission. It seems to me that this would be an excellent way to handle the problem of perishable goods. The municipal authorities in establishing such markets would have the power to buy and sell food products when an emergency exists. You may be sure this commission will aid the municipal authorities in any way possible on this question."

"Next Monday fifty tractors owned by the New York State Government will be put at the disposal of the New York farmers. This will increase the production for 1918 by many thousands of bushels as fifty tractors can cover more acres daily."

This is the first step taken by the State Food Commission under the new act which was the result of The Evening World's campaign for State control of food prices, begun over a year ago.

"First of all," said Mr. Mitchell, "I believe it to be of great importance to provide for an increased production for next year. Therefore the tractors."

"By this installation of tractors we hope to encourage production so that farmers will join in the buying of tractors for their common use in the future."

The next question will be ways and means for securing more help on the farms. The lack of sufficient labor on the farm is deplorable. Then our efforts will be directed in the interest of expeditious transportation and economical distribution.

"Another matter—the public at large will be called upon by this commission to inaugurate economies to which many have not been accustomed. We are hopeful that they will follow our advice willingly. Consumption will have to be lessened to a great degree for the purpose of conservation."

"Each of us must do what he is called upon to do in the matter of food saving. It may be imperative that we even deny ourselves some of the necessities."

"We must win the war. If the war is lost, liberty is lost, and we will be compelled to start all over again to build a civilization. But it must not and will not be lost, and the food element is the most important toward that end."

In discussing public matters it is almost impossible for Mr. Mitchell to refrain from his own present work as head of the Industrial Commission. "This war will bring about many changes in industrial fields," he said. "Men will need to be replaced by women, and I urge the women to take an interest and demand their rights."

"If women do the work of men

they should have the pay of men. In a word, they should have the same industrial and social rights as men."

the wages of women when they replace the men must be stopped, and this can be done in great measure by the concentrated efforts of the women themselves."

Stomach Upset? Stop Indigestion, Gases, Sourness—Pape's Diapepsin

Instant Relief! Neutralize stomach acidity and stop dyspepsia, pain, heartburn, belching. Try it!

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, it sick, easy and upset, and what you just ate has fermented and turned sour; head aches and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what because of the indigestion and distress.

Millions of men and women to-day know that it is needless to have dys-

pepsia. A little Diapepsin occasionally keeps the stomach sweetened and they eat their favorite foods without fear. If your stomach doesn't take care of your liberal diet without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really astonishing.—Advt.

The Doctor's Advice

By Dr. Lewis Baker

The questions answered below are general in character, the symptoms of disease are given and the answers will apply in any case of similar nature. These questions further advice, free, may address Dr. Lewis Baker, College Ridge, College Ridge streets, Dayton, Ohio, enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious names will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

relief from time to time. What must I do?

Answer: For prompt relief of pain use applications of Pine-o-latum once or twice daily. Also cleanse your system with a treatment of 3 grain sulphur tablets (not sugar coated).

Mrs. C. W. asks: "I suffer greatly owing to too much fat. Can you advise me of a good reduction remedy?"

Answer: I think it due to the severe dieting. Can you give me a remedy?"

Answer: You should be well supplied with food. The following diet is a 2 1/2 oz. package of essence man-tha-laxene and make according to directions on the bottle, then take a teaspoonful every hour or two until the food is cured. This makes a full plan of the very best and safest cough syrup. If your druggist does not have menthol-laxene, have him order it for you of the wholesaler firm.

Mrs. X. asks: "My scalp itches terribly, is it dandruff and a great amount of oily dandruff is present. What is good for this?"

Answer: First shampoo the hair and then apply plain yellow mineral about once a week as per directions. This relieves the itching, overcomes the dandruff and makes the hair beautifully glossy and vigorous. Obtain in a 2 oz. jar of druggists.

NITE: For many years Dr. Baker has been giving out prescriptions to millions of people through the press columns and doubtless has helped in relieving illness and distress more than any single individual in the world's history. Thousands have written him expressions of gratitude and confidence.

Dr. Lewis Baker, Dear Sir:—I feel it my duty to write you my two boys' no relief from all cough medicines we could try. We finally tried the menthol-laxene prescription and made it up as cough medicine and it quickly cured him. Now this last winter my two boys had a fearful cough, and again I had to write you. I also tried the menthol-laxene prescription and it quickly cured them. I also tried the menthol-laxene prescription and it quickly cured them. I also tried the menthol-laxene prescription and it quickly cured them.

Answer: A good tonic, nothing and neutralizing medicine for such complaints is balsam tablets. Try them and continue a few weeks and I am sure you will write me of your recovery.

"Miserable" writes: "I seem to be full of rheumatism. Pains in my back, limbs and shoulders. Also facial neu-

tralgia. I have been given many prescriptions to millions of people through the press columns and doubtless has helped in relieving illness and distress more than any single individual in the world's history. Thousands have written him expressions of gratitude and confidence.
